Abstract

2.1.1. subsubsection

These templates, “JSSA_Template_ENG.tex” and “jssa_e.sty”, are for Magazine (non peer-reviewed) and Journal (peer-reviewed) of Japanese Society for Sonic Arts.

3. Figures

1. Typeset Environment

Use “pdflatex” command for this English Template.

```
$ pdflatex JSSA_Template_ENG.tex
```

If you get error message in relation to the `\includegraphics` commands or mismatch size of figures, probably, your “pdflatex” environment is not suitable for PNG or PDF figures (probably your “pdflatex” environment is old.)

To solve this problem, we suggest two solutions.

First solution, use CloudLaTeX (<https://cloudlatex.io>). It is pdflatex environment via a Web browser. We have confirmed that our template can be compiled on the CloudLaTeX environment.

Second, you can fix our by removing a line:

```
\usepackage{graphicx}
```

then, removing comment-out (to comment-in) a line:

```
\useackage{pdfpages}
```

then, correcting the cropped Bounding-Box of your PDF figure. After that, you can use the command `\includepdf` instead of `\includegraphics`.

If you cannot solve this problem in neither way, we recommend that you use EPS figures. (This is quite old style.)

2. Introduction

Use basic L^AT_EX commands.

Headings are as follows:

2.1. subsection

This is `\subsection{}`.

The way to insert figures is as follows:

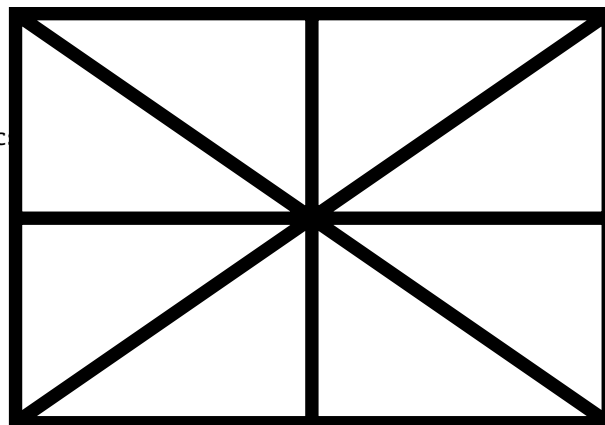

Figure 1. English Caption.

Use [h] option to insert a figure at a specified position.

```
\begin{figure}[h]
\includegraphics[
width=\columnwidth]{fileName.pdf}
\caption{English Caption}
\label{fig:figure}
\end{figure}
```

4. Footnote

The way to insert a footnote is as follows¹.

```
The way to insert a footnote is as
follows\footnote{This is footnote}.
```

¹ This is footnote

5. Enumerate, Itemize

5.1. Enumerate

```
\begin{enumerate}
\item Enumerated 1st item
\item Enumerated 2nd item
\end{enumerate}
```

1. Enumerated 1st item
2. Enumerated 2nd item

5.2. Itemize

```
\begin{itemize}
\item Itemized 1st Item
\item Itemized 2nd Item
\end{itemize}
```

- Itemized 1st Item
- Itemized 2nd Item

6. Citation

6.1. Using thebibliography

This is citation (Henoheno 2008).

This is citation\cite{Author1:08}.

A Multiple citation is as follows(Henoheno 2008; Hara-horo 2009).

A multiple citation is as follows\cite{Author1:08,Author2:09}.

6.2. Using BibTeX

If you use BibTeX, use attached a `chicago.bst`. Then, if your BibTeX file is `bibtexfilebib.bib`, use the following commands:

```
\bibliographystyle{chicago}
\bibliography{bibtexfilebib.bib}
```

7. Using German- and French-specific Characters

For “pdflatex” command, German- and French-specific unicode characters cannot be used. Follow the latex usage for German and French characters such like “\u” for ü, “\’a” for à.

7.1. French Style Citation

The command to cite the title of a piece in triangle (French) style such as « Piece Name » .

\flqq Piece Name\frqq
